## INDEPENDENT AUDITOR'S REPORT

To the City Council  
City of Broken Bow, Oklahoma

### Report on the Financials

We have audited the accompanying modified cash basis financial statements of the governmental activities, the business-type activities, each major fund, and aggregate remaining fund information of City of Broken Bow, Oklahoma, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note I.C.; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Broken Bow, Oklahoma, as of June 30, 2016, and the respective changes in modified cash basis financial position and, where applicable, cash flows thereof for the year then ended in accordance with the modified cash basis of accounting as described in Note I.C.

## **Basis of Accounting**

We draw attention to Note I.C. of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

## **Other Matters**

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Broken Bow, Oklahoma's basic financial statements. The management's discussion and analysis (pages 3-9), the schedule of funding progress (page 46), and the budgetary comparison information (pages 47-49), which are the responsibility of management, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Broken Bow, Oklahoma's basic financial statements. The combining and individual nonmajor fund financial statements—modified cash basis (pages 50-53) are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements—modified cash basis are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements—modified cash basis are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated February 14, 2017, on our consideration of the City of Broken Bow, Oklahoma's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Broken Bow, Oklahoma's internal control over financial reporting and compliance.

**City of Broken Bow, Oklahoma**  
**Unaudited - Management's Discussion and Analysis**  
**For the Year ended June 30, 2016**

Within the management's discussion and analysis of the City of Broken Bow, Oklahoma's annual financial report, management provides narrative discussion and analysis of the financial activities of the City for the fiscal year ended June 30, 2016. The City's financial performance is discussed and analyzed within the context of the accompanying financial statements and note disclosures following this section.

***FINANCIAL HIGHLIGHTS***

With respect to the government-wide financial statements:

- § The assets of the City of Broken Bow exceeded its liabilities at the close of the most recent fiscal year by \$28,102,738 (net position). Of this amount, \$7,276,886 (unrestricted net position) may be used to meet the governments' ongoing obligations to citizens and creditors.

With respect to the fund financial statements:

- § As of the close of the current fiscal year, the City of Broken Bow's governmental funds reported combined ending fund balances of \$2,637,256, an increase of \$632,269 from the prior year.
- § At the end of the current fiscal year, unassigned fund balance for the General Fund was \$1,141,971, or 35 percent of the total general fund expenditures for the year.

***OVERVIEW OF THE FINANCIAL STATEMENTS***

This discussion and analysis is intended to serve as an introduction of the City of Broken Bow, Oklahoma's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide Financial Statements.**

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* represents government-wide information on all of the City's assets and liabilities, with the difference between assets and liabilities reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

**City of Broken Bow, Oklahoma**  
**Unaudited - Management's Discussion and Analysis**  
**For the Year ended June 30, 2016**

The *statement of revenues, expenses and changes in net position* presents government-wide information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported on the modified cash basis when cash is received or paid.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, streets, culture and recreation, cemetery and parks and health and welfare. Business-type activities include water, wastewater utilities, electricity and solid waste management.

The government-wide financial statements can be found on pages 10-11 in this report.

**Fund Financial Statements.**

A *fund* is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The City uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the City's most significant funds rather than the City as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

*Governmental funds* are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of spendable resources, as well as on balances of spending resources available at the end of the fiscal year. Such information may be useful in evaluating the City's short-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's short-term financing decisions.

**City of Broken Bow, Oklahoma**  
**Unaudited - Management's Discussion and Analysis**  
**For the Year ended June 30, 2016**

Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City internally maintains nine individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and grant fund, which are considered to be major funds.

The City of Broken Bow adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund and all major funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 12-14 of this report.

*Proprietary Funds* are reported in the fund financial statements and generally report services for which the City charges customers a fee. There are two types of proprietary funds. *Enterprise funds* essentially encompass the same functions reported as business-type activities in the government-wide statements. Services provided to customers external to the City. The City of Broken Bow uses enterprise funds to account for its water, wastewater, electric and solid waste management. Proprietary fund statements provide both long-term and short-term financial information consistent with the focus provided by the government-wide financial statements but with more detail. *Internal service funds* report services provided within the city organization. Currently the City of Broken Bow uses an internal service fund to allocate self insured health costs.

The basic proprietary fund financial statements can be found on pages 15-18 of this report.

**Notes to the financial statements.**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 19-48 of this report.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 52-53 of this report.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Broken Bow, assets exceeded liabilities by \$28,102,738 at the close of the most recent fiscal year.

By far the largest portion of the City of Broken Bow's net position reflects its investment in capital assets (e.g., land, buildings, infrastructure, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The City of Broken Bow uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of Broken Bow's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

***FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS***

As noted earlier, the City of Broken Bow uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

**Governmental funds.** The focus of the City of Broken Bow's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City of Broken Bow's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Broken Bow's governmental funds reported combined ending fund balances of \$2,637,256, an increase of \$632,269 in comparison with the prior year.

The general fund is the chief operating fund of the City of Broken Bow. At the end of the current fiscal year, unreserved fund balance of the general fund was \$1,141,971.

**Proprietary funds.** The City of Broken Bow's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

As of the end of the current fiscal year, the City of Broken Bow's proprietary funds reported combined ending net position of \$16,583,280, an increase of \$882,098 in comparison with the prior year.

***GENERAL FUND BUDGETARY HIGHLIGHTS***

Revenues exceeded budgeted amounts in the General Fund by \$574,065, and expenditures were \$534,788 less than budgeted amounts for the year.

***CAPITAL ASSETS AND DEBT ADMINISTRATION***

**Capital assets.** The City of Broken Bow's investment in capital assets for its governmental and business type activities as of June 30, 2016, amounts to \$34,348,962 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, park facilities, roads highways, and bridges. The total change in the City of Broken Bow's investment in capital assets for the current fiscal year was a \$83,892 increase for governmental activities and a \$374,830 decrease for business-type activities.

Amounts reported for governmental activities  
in the statement of activities are different because:

Net change in fund balance - total governmental funds	\$ 632,269
---	------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	83,892
---	--------

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.	(271,786)

Internal service funds are used by management to charge the costs of self insured health costs to individual funds. The net gain or loss of certain activities of internal service funds is reported with governmental activities.	<u>47,976</u>

***I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES***

**A. The Reporting Entity**

The City of Broken Bow is an incorporated city created under Title 11, Chapter 17 of the Oklahoma Statutes, operating under the Council-Manager form of government. The governing body of the City is the City Council. The appointed City Manager is the executive officer of the City.

For financial reporting purposes the financial statements included all funds and account groups over which the City Council exercises oversight responsibility. The criteria used to determine whether or not to include other entities in the financial statements were (1) the selection of governing authority, (2) designation of management, (3) ability to significantly influence operations, and (4) accountability for fiscal matters. Based on these criteria, the Broken Bow Public Works Authority and Kulli Chito Environmental Authority are included.

*Broken Bow Public Works Authority*

The Broken Bow Public Works Authority is a Title 60.O.S. public trust created April 21, 1959, for the use and benefit of the City of Broken Bow, Oklahoma. The current City Council serves as the governing body. The Broken Bow Public Work Authority is reported as a blended component unit.

*Kulli Chito Environmental Authority*

The Kulli Chito Environmental Authority is a Title 60.O.S. public trust created April 14, 1993, for the use and benefit of the City of Broken Bow, Oklahoma. The current City Council serves as the governing body. The Kulli Chito Environmental Authority is reported as a blended component unit.

**B. Government-Wide and Fund Financial Statements**

*Government-Wide Financial Statements*

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

**B. Government-Wide and Fund Financial Statements – continued**

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

*Fund Financial Statements*

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The City's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements and applicable Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless they conflict with GASB pronouncements. The City's reporting entity does not apply FASB pronouncements or APB opinions issued after November 30, 1989.

The governmental funds are reported on a modified cash basis of accounting and current financial resources measurement focus. Only current financial assets and liabilities resulting from cash transactions are included on the fund balance sheets. The operating statements present sources and uses of available spendable financial resources during a given period. These fund financial statements use fund balance as their measure of available spendable financial resources at the end of the period. The reconciliation of the governmental funds financial statements to the governmental activities presentation in the government-wide financial statements is the result of the use of the economic resources measurement focus at the government-wide level. The proprietary fund also uses the economic resources measurement focus.

**I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued**

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation  
- continued**

The statement of net position and activities and the fund financial statements are reported on a modified basis of accounting. The modified cash basis of accounting is based on the recording of cash and cash equivalents and changes therein, and only recognizes revenues, expenses, assets and liabilities resulting from cash transactions adjusted for modifications that have substantial support in generally accepted accounting principles. These modifications include adjustments for the following balances arising from cash transactions:

- Capital assets and the depreciation of those assets, where applicable
- Debt issue cost and the amortization of those costs, where applicable
- Long-term debt
- Cash-based interfund receivables and payables
- Other cash-based receivable and payables

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected, and accrued revenue and receivables) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

The government reports the following major government funds:

General Fund - is the government's primary operating fund. It accounts for all financial resources.

Grant Fund – is a special revenue fund used to account for grant revenues received, and the expenditure of those funds.

Community Improvement Fund – is a special revenue fund used to account for dedicated sales tax revenues to fund community improvement projects.

The government reports the following major proprietary funds:

The *Broken Bow Public Works Authority*, which accounts for all the operating revenues and expenses related to providing water, sewer and electric services, and the *Kulli Chito Environmental Authority* which accounts for all the operating revenues and expenses related to sanitation services.

Additionally, the government reports the following fund types:

*Special revenue funds:* Senior Citizens, Airport, Cemetery Care, Library, Police Donation, Go Fund Me Donation Account and Nutrition.

*Internal service funds* account for self insured health costs provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis. These funds are reported with governmental activities in the government-wide statements.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and of the government's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

**D. Assets, Liabilities, and Net Position or Equity**

*Deposits and investments*

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The City does not have a written investment policy that limits its investment choices other than the limitations stated in the *Oklahoma Statutes*. *Oklahoma Statutes* allow the City to invest in bonds of cities, school districts, or counties within the State of Oklahoma; public trust bonds whose beneficiary is a county, municipality or school district, except industrial development bonds; direct obligations of the United States; and certificates of deposit. Public trusts created under O.S. Title 60, are not subject to the above investment limitations and are primarily governed by any restrictions in their trust or note indenture.

Investments for the government, as well as for its component units, are reported at cost, which approximates fair value.

*Receivables and payables*

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either due to/from other funds (i.e., the current portion of interfund loans). All other outstanding balances between funds are reported as due to/from other funds.

*Inventories*

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

*Restricted assets*

Certain proceeds of revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable bond covenants.

**D. Assets, Liabilities, and Net Position or Equity – continued**

*Capital assets*

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$2,500 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements including interest are capitalized as projects are constructed.

Property, plant, and equipment of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	10 - 50
Building Improvements	10 - 20
Public Domain Infrastructure	50
System Infrastructure	10 - 30
Machinery and Equipment	5 - 10

**D. Assets, Liabilities, and Net Position or Equity – continued**

*Long-term obligations*

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net Position.

In the fund financial statements, the face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

*Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires the City to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

*Fund equity*

*Government-wide Statements*

Equity is classified as net position and displayed in three components:

1. *Net Investment in capital assets* – consists of capital assets net of accumulated depreciation and related debt.
2. *Restricted net position* – consists of net position with constraints on the use either by: (1) external groups or (2) law through constitutional provisions or enabling legislation.
3. *Unrestricted net position* – All other net position that do not meet the definition of “restricted” or “net investment in capital assets”.

*Fund Statements*

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the City is bound to honor constraints on specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- *Nonspendable*: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.
- *Restricted*: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
- *Committed*: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council. These amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same type of action (resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.
- *Assigned*: This classification includes amounts that are constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Council or through the Council delegating this responsibility to the City Manager through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund. The City has assigned interest earnings to the funds where earned for the purposes defined by the fund.
- *Unassigned*: This classification includes the residual fund balance for the General Fund. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

The City would typically use Restricted fund balances first, followed by Committed resources, and then Assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend Unassigned resources first to defer the use of these other classified funds.

**II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

**A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position**

The governmental fund balance sheet includes a reconciliation of the \$8,882,202 difference between *fund balance - total governmental funds* and *net position - governmental activities* as reported in the government-wide statement of net position.

The first element of that reconciliation explains that capital assets used in governmental activities that are not financial resources and therefore, are not reported in the funds.

Land and Improvements	\$ 1,932,949
Buildings and Improvements	2,651,378
Property and Equipment	3,604,867
Infrastructure	<u>5,558,449</u>
	13,747,643
Accumulated Depreciation	<u>(4,832,668)</u>
Capital Assets, Net	<u><u>\$ 8,914,975</u></u>

Another element of that reconciliation is the assets and liabilities of the internal service funds included in governmental activities in the statement of net assets. Following are the details of the net adjustment to increase *fund balance - total governmental funds* to arrive at *net position - governmental activities*:

<b>Assets</b>	
Cash and equivalents	<u>\$ 340,716</u>
Total Assets	<u>340,716</u>
<b>Net Position</b>	<u><u>\$ 340,716</u></u>

The last element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.”

Capital Leases	<u>\$ 373,489</u>
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	<u><u>\$ (373,489)</u></u>

**II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

**B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities**

The government fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation of the \$139,918 difference between *net changes in fund balances - total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities.

One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital Outlay	\$	543,942
Depreciation Expense		<u>(460,050)</u>
Net adjustment to increase net change in <i>fund balance - total governmental funds</i> to arrive at changes in <i>net position - governmental activities</i>		<u>\$ 83,892</u>

Another element of that reconciliation states that “the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.

Capital Lease Principal Payments	\$	73,289
Capital Lease Proceeds		<u>(345,075)</u>
Net adjustment to decrease net change in <i>fund balance - total governmental funds</i> to arrive at changes in <i>net position - governmental activities</i>		<u>\$ (271,786)</u>

**B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities - continued**

The last element of the reconciliation states “the net gain of certain activities of internal service funds is reported with governmental activities.

Change in Net Position - Internal Service Funds	\$ <u>47,976</u>
Net adjustment to increase net change in <i>fund balance - total governmental funds</i> to arrive at changes in <i>net position - governmental activities</i>	\$ <u><u>47,976</u></u>

**III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**A. Budgetary Information**

The city manager submits an annual budget to the City Council in accordance with the City Charter and the Oklahoma Municipal Budget Act. In June the City Commission adopts annual fiscal year appropriated budgets for all city funds.

The appropriated budget is prepared by fund, department and categories (personnel services, materials and supplies, other services and charges, capital outlay, debt services and transfers). Transfers of appropriations between departments within a fund require the approval of the City Manager. Transfers of appropriations between funds and supplements to the budget require City Council approval. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level.

**IV. DETAILED NOTES ON ALL FUNDS**

**A. Deposits and Investments**

*Custodial Credit Risk – Deposits*

Custodial credit risk is the risk that in the event of a bank failure, the City’s deposits may not be returned to it. The City does not have a written deposit policy for custodial credit risk, but *Oklahoma Statutes* required collateral for all uninsured deposits of municipal funds in financial institutions. As of June 30, 2016, the City’s bank balances of \$9,264,750 were not exposed to custodial credit risk.

**A. Deposits and Investments – *continued***

*Investment Interest Rate Risk*

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

*Investment Credit Risk*

The City has no investment policy that limits its investment choices other than the limitations of state law that generally authorize investments in: (1) full faith and credit, direct obligations of the U.S. Government, its agencies and instrumentalities, and the State of Oklahoma and certain mortgage insured federal debt; (2) certificates of deposit or savings accounts that are either insured or secured with acceptable collateral; (3) negotiable certificates of deposit, prime bankers acceptances, prime commercial paper and repurchase agreements with certain limitations; (4) county, municipal or school district tax supported debt obligations, bond or revenue anticipation notes, money judgments, or bond or revenue anticipation notes of public trusts whose beneficiary is a county, municipality or school district; and government money market funds regulated by the SEC. These investment limitations do not apply to the City's public trust. The City's investments at June 30, 2016 consisted of \$239,151 in Goldman Sachs Financial Square Treasury Obligation money market mutual funds with a Moody's credit rating of Aaa; and \$68,841 of funds held in escrow by the Oklahoma Municipal Assurance Group.

*Concentration of Credit Risk*

The City places no limit on the amount it may invest in any one issuer.

*Restricted Cash and Investments*

Restricted cash and investments in the enterprise funds at June 30, 2016 consist of the Debt Service Fund in the amount of \$239,151, refundable meter deposits of \$91,386, OMAG Reserve \$24,832; landfill post-closure \$1,200,012; and capital projects \$1,385,946.

*Utility System and Sales Tax Revenue Note, Series 2006*

In May 2006, the Broken Bow Public Works Authority issued \$7,890,000 Utility System and Sales Tax Revenue Note, Series 2006. Proceeds of the note were used to defease \$7,950,000 of outstanding 2002 Refunding Bonds. The note bears interest of 4.52%. Proceeds of the 2006 note were placed in an escrow account for the purpose of generating resources for all future debt service payments to pay off the 2002 Refunding Bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the City’s statement of net position. This advance refunding will reduce the debt service payments by \$1,591,118 over the term of the bonds and resulted in an economic gain of \$589,214.

Principal and interest due on the Utility System and Sales Tax Revenue Note, Series 2006, are as follows:

***IV. DETAILED NOTES ON ALL FUNDS - continued***

**E. Long Term Debt - continued**

Provisions of the Revenue Note which are pertinent to the financial statements are as follows:

*Pledged Revenues* - Net water and sewer revenues generated from the Authority will be used first to meet debt service; second to pay operation and maintenance expenses of the system; and third to replenish the minimum required balance of the reserve fund requirement.

The Broken Bow Public Works Authority at all times will maintain schedules of rates and charges for services sufficient to provide funds which together with other revenues pledged will provide Net Revenues Available for Debt Service equal to at least 125% of the annual principal and interest requirements on the bonds for that year.

*Army Corp of Engineers – Water Rights*

Water rights, for 4,241 acre feet in Broken Bow Lake, are financed at a rate of 2.742% by a note with the United States Army Corp of Engineers. The contract requires the purchase price of \$170,189 to be retired over a 27 year period with yearly payments of \$8,764. The principal balance outstanding at June 30, 2016, was \$9,355.

Principal and interest maturities are as follows:

<i>Year Ending June 30,</i>	<i>Principal</i>	<i>Interest</i>
2017	\$ 8,525	\$ 240
2018	<u>830</u>	<u>116</u>
	<u>\$ 9,355</u>	<u>\$ 356</u>

The Authority is obligated for the future use of additional water rights amounting to 4,054 acre feet in Broken Bow Lake. These rights are to be financed at an interest rate of 2.742% through a note with the United States Corp of Engineers. The contract purchase price is \$154,165 and the amounts outstanding at June 30, 2016, is \$141,174. This amount is to be retired over a 27 year period with annual interest only payments of \$4,227 until the Authority's acre feet usage exceeds the first 4,241 acre feet, which has not yet been exceeded, therefore no amortization schedule is available at this time.

**G. Pension Plans**

*Firefighters' Retirement Plan*

The City contributes to pension plans on behalf of all full time employees including the police and fire departments. Following is a discussion of each plan, and the summary financial data:

Fire department employees in Oklahoma participate in a state administered pension program established under legislative authority, Oklahoma Firefighters' Pension Fund, which is a cost-sharing multiple-employer public employee retirement system (PERS). Under this program, contributions are made by each of three parties - the City, the State of Oklahoma, and the participating employees. The City has no responsibility or authority for the operation and administration of the pension program nor has it any related liability, except for the current contribution requirements.

A participant with twenty years of service may retire with a normal retirement allowance. The normal retirement allowance paid monthly for life and then to beneficiaries equal to 2.5% of the average compensation of the highest 30 months of the last 60 months of contributory service multiplied by the number of years of credited service up to the maximum of 30 years.

The contribution rates for the City and its employees are established by Statute. The City is required to contribute 13% per the year June 30, 2016. Participating members are required to contribute 8%.

Three Year Trend Information:

Year Ending June 30,	Covered Payroll	Total Pension Cost	City Share	Employee Share	On Behalf Payments
2016	\$ 266,628	\$ 61,325	\$ 37,328	\$ 23,997	\$ -

2014	239,408	53,178	32,574	20,604	-

As of July 1, 2016, the latest available actuarial valuation, the actuarial present value of credited projected benefits was \$3,477,473,000, and net assets available for benefits were \$2,292,698,000. Unfunded liabilities, which are an obligation of the state of Oklahoma, totaled \$1,184,775,000.

Additional information can be obtained by writing Oklahoma Firefighters Pension and Retirement Board, 4545 N. Lincoln Blvd., Suite 165, Oklahoma City, OK, 73105.

*Municipal Retirement Plan*

The Oklahoma Municipal Retirement Fund (OMRF) issues a publicly available financial report that includes financial statements and the required supplementary information that can be obtained by requesting a copy at City Hall.

Funding Policy: The contribution requirements of City of Broken Bow and employees are established and may be amended by the OMRF board. Employees are required to contribute 5.25 percent of their annual covered salary. City of Broken Bow is required to contribute at an actuarially determined rate; the rate at June 30, 2016 is 12.1% of covered payroll.

Annual Pension Cost: For 2015-2016, City of Broken Bow's annual pension cost of \$226,330 was equal to the required and actual contributions. The required contribution was determined as part of the March 10, 2016 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (I) 7.5 percent investment rate of return, (II) projected salary increases due to inflation of 3 percent, compounded annually, and (III) projected salary increases due to age/seniority, compounded annually.

Trend Information:

Year Ending June 30,	Contribution Rate	Total Cost (APC)	Contributed	Net Pension Obligation
2016	12.10%	\$ 226,330	100%	\$ -
2015	8.57%	211,628	100%	-
2014	10.75%	213,690	100%	-

Funding Status and Funding Progress: As of March 2016, the most recent actuarial valuation date, the plan was 96.8 percent funded. The actuarial accrued liability for benefits was \$4,257,536, and the actuarial value of assets was \$4,120,046, resulting in an unfunded actuarial accrued liability (UAAL) of \$137,490. The covered payroll (total annualized rate of pay as of the valuation date based on actual pay for the preceding year) was \$1,745,502, and the ratio of the UAAL to the covered payroll was 7.9 percent.

The City's unfunded actuarial accrued liability is being amortized as a level dollar amount on an open basis.

The schedule of funding progress, presented as OSI following the notes to the financial statements, present trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

**H. Landfill Closure and Post-Closure Care Costs**

State laws and regulations require the Kulli Chito Environmental Authority, a blended enterprise fund, to perform certain closure activities for its Broken Bow landfill and to provide certain maintenance and monitoring functions at the site for thirty years after it ceases operations. Although closure and post-closure care costs will be paid only near or after the date the facility stops accepting waste, the Authority reports a portion of the closure and post-closure costs as operating expense in each period based on landfill capacity used as of each balance sheet date. The total closure and post-closure costs are \$1,263,739, as stated by the engineering firm and approved by the Oklahoma Department of Environmental Quality. Of this amount, \$1,031,158 has been accrued through June 30, 2016. This amount represents the cumulative amount to date based on the use of 91% of the current estimated capacity of the landfill. There are approximately 2.55 landfill life years remaining. The Authority will recognize the remaining estimated cost of closure and post-closure care of \$232,581, as the remaining capacity is filled. These amounts are based on what it would cost to perform all closure and post-closure care at the site in 2016. However, the Authority expects to operate the landfill until at least year 2018. Therefore, actual costs may be higher due to inflation, changes in technology, or changes in laws and regulations. The Authority sets aside a portion of its net proceeds for financial assurance. As of June 30, 2016, \$1,200,012 has been restricted for payment of future closure and post closure care costs.

**I. Risk Management**

The City is exposed to various risks of loss (torts, theft of, damage to, or destruction of assets, business interruptions, errors and omissions, job-related illnesses or injuries to employees, and acts of God) and has established a risk management strategy that attempts to minimize losses and the carrying cost of insurance. There have been no significant reductions in insurance coverage from the prior year and settlements have not exceeded coverage in the past three years.

**J. Commitments and Contingencies**

*Federal Programs*

The City participates in a number of federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The final acceptance of the audits of these programs including the year ended June 30, 2016, has not been given. Accordingly, the City's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time. However, the City expects such amounts, if any, to be immaterial.

**K. Economic Dependence**

The enterprise fund (Broken Bow Public Works Authority) is economically dependent upon major water and electric utility users to produce revenue sufficient to make its debt service payments and fund its operations.

**City of Broken Bow, Oklahoma**  
**Unaudited Budgetary Information**  
**June 30, 2016**

The city manager submits an annual budget to the City Council in accordance with the City Incorporation and the Oklahoma Municipal Budget Act. In June the City Council adopts annual fiscal year appropriated budgets for all city funds.

The appropriated budget is prepared by fund, department and categories (personnel services, materials and supplies, other services and charges, capital outlay, debt services and transfers). Transfers of appropriations between departments within a fund require the approval of the City Manager. Transfers of appropriations between funds and supplements to the budget require City Council approval. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level.

The budgetary comparison schedules are reported on the same modified cash basis as governmental funds within the basic financial statements. For budgetary comparison purposes, the City considers all encumbrances to lapse at year end; therefore, encumbrances are not considered expenditures for budgetary comparison purposes. However, the City will re-appropriate these lapsed encumbrances in the subsequent year budget.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the City Council  
City of Broken Bow, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the modified cash basis financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Broken Bow, Oklahoma, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise City of Broken Bow, Oklahoma's basic modified cash basis financial statements, and have issued our report thereon dated February 14, 2017.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered City of Broken Bow, Oklahoma's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Broken Bow, Oklahoma's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Broken Bow, Oklahoma's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether City of Broken Bow, Oklahoma's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
